

NIGHT PROTOCOL

<< LIVE ELECTRONIC BAND FROM THE NORTHEAST >>

Night Protocol was created to unite the sounds of the past, present, and future with a cutting-edge style of live electronic music.

Night Protocol shows are driven by live analog synthesizers, pulsing basslines, ripping guitar solos, soaring saxophone leads, and harmonized vocals. Their live show takes a theatrical approach to music performance with coordinated visuals, lighting effects, and a contagious sense of passion and energy for the foundations of electronic music.

Since founding in 2017, Night Protocol have released two albums and two EPs to critical acclaim. Their latest songs push the boundaries of the genre and feature original visuals that seek to make every show an immersive experience. Their latest singles stretch into new territory as they establish their foothold in the scene, uniting both electronic music and live jam audiences into one.
